The diagram illustrates the connection between the Webasto system and TruMicro. At the top, 'Webasto' is connected to a central 'TruMicro' unit. Below this, two '400' and '800' units are shown, each connected to a 'Webasto' unit. The '400' unit is also connected to a 'TruMicro' unit. The '800' unit is connected to a 'Webasto' unit, which is further connected to another 'Webasto' unit at the bottom. A large rectangle labeled 'TruMicro' covers the central area where the connections converge.
